PROFESSIONAL EXPERIENCE

IT Engineering Consultant / Senior Fullstack Developer (Freelance) | L3M Holding

Remote | Apr 2025 - Present

- Design, rebuild and deploy SaaS platforms and business websites, from application architecture and customer journeys to production operations.
- Deliver MVPs in approximately 3 weeks, followed by full production rollouts in 5-6 months, depending on project scope.
- Build CRM, Stripe payment, PDF quotation, appointment, booking and administration workflows; integrate APIs and automate processes.
- Own frontend/backend delivery, legacy migrations, Docker/Nginx deployments, CI/CD, SEO, performance and GTM/GA4 analytics.
- Projects delivered in this engagement (2025-2026): Oikos Impact, C'Permis Formation, Démarche Permis Rapide, Global Work Hub, Global Key Partners, Green Cottage, EBHI, L3M Holding, Digital Media Projects, DMP IA, Prime Host, AxeroVy, Saran Conduite, Kemyadom and Mydomii6L.

Fullstack Web & Mobile Developer (Freelance) | Synergie Mad

Fully remote | Oct 2023 - Mar 2025

- Developed and maintained web and mobile solutions using Next.js, Laravel, Firebase and MySQL.
- Delivered a confidential community mobile app (FlutterFlow, Firebase) and contributed to a confidential crypto learning/simulation platform.

Master's Internship | Ministry of Environment and Sustainable Development

Madagascar | May 2023 - Aug 2023

- Developed and deployed an AI-assisted fire detection and early-warning system using Python, JavaScript/Vue.js and MySQL.

Fullstack Developer Consultant | ONG CID

Madagascar | Nov 2021 - Jan 2023

- Redesigned and launched the NGO's WordPress website; improved content structure and usability and mapped workflows with Draw.io.
